Supervisor/Event Organizer/Media

PERSONAL PROJECTS

Personal Portfolio (03/2021 - Present)
- Built a personal Website from scratch using HTML, CSS, JavaScript Languages.
- https://github.com/vreoo/Portfolio (Github Page for the source code of the project).

Discord Bot (02/2021 - Present)
- Discord bot is a team of two effort, was built using Python language.
- The bot has a lot of features such like Moderating options, AI-powered image utilities such as background remover and face detector.
- Some Utility commands like weather checker and Word-Definition API.
- It is open source project so feel free to invite it to your server and modify it, https://github.com/M7mdisk/beshoo-bot (GitHub Page for the source code of the project).
